The official start of spring is this month and with spring comes heavy rains. Here are a few tips on how to be proactive about protecting our environment and helping keep our streets clean and Germantown beautiful.

- Avoid placing trash and recyclables in bags or containers directly on drains and inlets.
- When heavy rain is forecasted, place trash and recycling bins and items at the end of your driveway close to, **but not in**, the street to keep the gutter flow line clear and avoid spillage due to heavy water flow.
- Do not rake leaves and yard debris into the street or alley.
- Lend a helping hand. Remove from your street gutters and alleys all trash and loose items that could potentially interfere with storm drainage.
- Report a blocked storm drain to the Germantown Service Department, 937-855-7255.

Blocked storm water drains can lead to flooding in the street and pollution in our streams.

Thank you for doing your part.
