Lawn and Garden Tips to Help Curb Stormwater Pollution

Stormie Says....

How you care for your lawn can affect your local waterways. Runoff, yard clippings, chemicals, what you plant and even the location of your plants can all have an effect on storm water pollution. Keep healthy lawn care practices in mind as you ramp up your lawn and garden this season.

Thank you for doing your part.

Thank You Germantown Rotary!

A huge thank you to the Germantown Rotary Club for the generous donation towards the purchase of the safety mats installed at Germantown Parks. Mother Nature has given us a few warm days this season and, for those of you that were able to make it out to the parks, you may have noticed the new safety mats placed under the swings and at the base of the slides. The thick rubber safety mats serve as added protection for children as they enjoy the playground equipment. On behalf of the residents of Germantown, we would like to say "Thank you Germantown Rotary!" for your contribution and the continuous support you give to our beautiful town.

May is Bicycle Safety Month, and the U.S. Department of Transportation's National Highway Traffic Safety Administration (NHTSA) urges bicyclists and motorists to share our roadways by obeying the traffic laws and respecting each other's rights.

City crews installed the new Miami Military Institute/Camp Miami sign at the Warren Street entrance
