### Water Saving Tips

Summer is in full swing. Here are a few tips to help you conserve water and save on your utility bill!

- Water your lawn and garden in the early morning or late in the day. When temperatures are cooler, less of the water will evaporate before soaking into the ground.
- Spread a thick layer of bark mulch around flower beds, trees, shrubs and gardens. Mulch helps retain moisture, so you won't need to water as often.
- Never use a garden hose to rinse leaves and grass clippings off driveways, sidewalks, and patios. Use a push broom, rake, or leaf blower and collect the debris into a trash bag or compost bin. Keeping debris out of our storm water drains protects Twin Creek and our water ways!

Please see our website [www.germantown.oh.us](http://www.germantown.oh.us) or Facebook page [City of Germantown, Ohio - Municipal Government](#) for the latest updates regarding City facilities and functions.
